DETAILED ACTION

1. Receipt is acknowledged of Ids filed on 11/7/2003.

Election/Restrictions

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-79, and 117-122 drawn to a point-of-sale transaction, recite a method comprising of receiving a request from a customer an indication of a desired digital content on a medium having a changeable portion when activated is adapted to physically change the cover over a period of time and means of removing a protective cover to activate a changeable portion, and providing the medium to the customer without the protective cover, classified in class 235, subclass 375 or class 705, subclass 14, 16, and 18.
 - II. Claims 80-116, drawn to providing a medium to a customer having a digital content, wherein the medium comprising a changeable portion to pertain a message to the customer, and wherein the message is an indication of a prize won from a contest, classified in class 700, subclass 91.

The inventions are distinct, each from the other because of the following reasons:

3. Inventions of group 1 and group 2 are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination

as claimed because a point-of-sale transaction. The subcombination has separate utility such as a contest and prize winning/distribution.

4. Because these inventions are distinct for the reasons given above and the search required for I is not required for group II, restriction for examination purposes as indicated is proper.

5. A telephone call was made to Mr. Barry W. Dove on Friday October 1st, 2005 to request an oral election to the above restriction requirement, but did not result in an election being made. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to EDWYN LABAZE whose telephone number is (571) 272-2395. The examiner can normally be reached on 7:30 AM - 4:00 PM.
